Introduction

Social media has become an essential part of business success. Whether you're building a brand, driving sales, or engaging with customers, a strong strategy is key.

Torrent Pharma Marketing Services is a specialized social media–driven expansion agency focused on helping pharmaceutical manufacturing companies identify, attract, and onboard qualified franchisers and distributors across Pakistan—especially in uncovered or weak territories.
Instead of relying on traditional field sales alone, we use targeted digital strategies to connect manufacturers with serious business partners in specific cities and districts.

Our core mission:
Fill uncovered markets with the right people, faster and smarter.

Why Social Media Matters?

4.9 billion people use social media worldwide.

76% of consumers buy products they see on social media.

Brands that engage on social media generate 20-40% more revenue.
